Khawaja Zeeshan

MERN Stack Developer

Islamabad, Pakistan | +92 312 9475508 | khawajazeeshan225@gmail.com | Portfolio | LinkedIn | GitHub

Summary

Computer Science graduate with a strong foundation in MERN Stack development, solid skills in Python and C++, and hands-on experience building full-stack projects and AI-powered chatbot applications. Quick learner, strong problem-solver, and passionate about creating seamless, scalable web applications. Seeking for an entry-level developer role to build real-world products and grow in modern web development.

SKILLS

Frontend: **HTML5, CSS3, Tailwind CSS, JavaScript, React.js, Next.js**
Backend: **Node.js, Express.js**
Database: **MongoDB**
Languages: **JavaScript, C++, Python**
Tools & Platforms: **Git, GitHub, Vercel, Render, Chrome DevTools**
Additional Skills: **MS Office, REST APIs, Problem Solving, Full-Stack Project Development**

PROJECTS

- **Revamping UAJK Portal Empowered with AI Chatbot (Final Year Project)**

  Built a MERN-based university portal with a modern UI and 3D model integration, featuring an AI assistant for recommendations, along with an Admin Dashboard for student tracking and a Student Dashboard for registrations and profile management, focused on user experience and automated support.

- **LinkNest:** A link-in-bio platform using Next.js, MongoDB, and Tailwind CSS enabling users to manage and share multiple social links via a single profile page. Implemented JWT-based authentication, email verification, password reset, and a dashboard for adding, updating, and deleting links.

- **Bitlink:** A URL shortening platform using Next.js, TypeScript, MongoDB, and Tailwind CSS to convert long URLs into short, shareable links. Implemented custom slugs, dynamic redirection routes, and a responsive UI for fast and ad-free link generation.

- **SecureAuth:** A full-stack authentication system using Next.js, MongoDB, and Tailwind CSS with JWT access/refresh token architecture. Implemented OAuth login (Google, GitHub), email verification, password recovery, and middleware-based route protection.

- **Premium Task Workspace:** Task management application using Next.js, TypeScript, and MongoDB with passwordless magic-link authentication and JWT session security. Implemented full task CRUD operations, real-time productivity statistics dashboard, and responsive UI using Tailwind CSS.

- **AI Chatbot:** Developed a Web Application for real-time conversational responses using React, Node.js, Express.js, and MongoDB with a microservices-based backend architecture for authentication, chat processing, and user management. Implemented secure authentication with JWT, Email OTP verification, and Google OAuth.

EDUCATION

University of Azad Jammu & Kashmir | 2021 – 2025
Bachelors of Science in Computer Science (**BSCS**)
