Khawaja Zeeshan

MERN STACK Developer

Islamabad, Pakistan | +92 312 9475508 | khawajazeeshan225@gmail.com | Portfolio | LinkedIn | GitHub

PROFILE

Computer Science graduate with a strong foundation in MERN Stack development, solid skills in Python and C++, and hands-on experience building full-stack projects and AI chatbot. Quick learner, strong problem-solver, and passionate about creating smooth, scalable web apps. Looking for an entry-level developer role to build real-world products and grow in modern web development.

SKILLS

Frontend: **HTML5, CSS3, JavaScript, React.js**
Backend: **Node.js, Express.js**
Database: **MongoDB (MERN Stack)**
Framework: **Next.js, Tailwind CSS**
Languages: **C++, Python**
Version Control: **Git, GitHub, DevTools**
Deployment & Hosting: **Vercel, Render**
Web Development Skills: **REST APIs, Component-based UI, Responsive Design, State Management**
Other: **MS Office (6-month course) Problem-solving, project development from scratch**

FINAL YEAR PROJECT: Revamping UAJK Portal Empowered with AI Chatbot

- Built a full MERN-based university portal with a modern UI, 3D model integration.
- Integrated AI assistant for smart recommendations.
- Added an Admin Dashboard for student tracking and a Student Dashboard for registrations and profile management. Focused on smoother user experience and automated support.

PROJECTS

- **LinkNest:** A link-in-bio platform using Next.js**,** MongoDB, and Tailwind CSS enabling users to manage and share multiple social links via a single profile page. Implemented JWT-based authentication, email verification, password reset, and a dashboard for adding, updating, and deleting links.

- **Bitlink:** A URL shortening platform using Next.js**,** Typescript**,** MongoDB, and Tailwind CSS to convert long URLs into short, shareable links. Implemented custom slugs, dynamic redirection routes, and a responsive UI for fast and ad-free link generation.

- **SecureAuth:** A full-stack authentication system using Next.js, MongoDB, and Tailwind CSS with JWT access/refresh token architecture. Implemented OAuth login (Google, GitHub), email verification, password recovery, and middleware-based route protection.

- **Premium Task Workspace:** Task management application using Next.js**,** Typescript**,** and MongoDB with password less magic-link authentication and JWT session security. Implemented full task CRUD operations, real-time productivity statistics dashboard, and responsive UI using Tailwind CSS**.**

- **AI Chatbot:** Developed a Web Application for real-time conversational responses using React**,** Node.js**,** Express.js**,** and MongoDB with a micro services-based backend architecture for authentication, chat processing, and user management. Implemented secure authentication with JWT, Email OTP verification, and Google OAuth**.**

EDUCATION

University of Azad Jammu& Kashmir | 2021 – 2025
BS in Computer Science
Specialization: MERN STACK Development
